Interim Management Discussion of Fund Performance

August 23, 2021

The Interim Management Report of Fund Performance presents management's view of the significant factors and developments affecting the Pool's performance and outlook since December 31, 2020, the Pool's most recent fiscal year-end. This report should be read in conjunction with the Annual Management Report of Fund Performance for the year ended December 31, 2020.

Results of Operations

Net assets of the Pool increased by approximately \$129.5 million for the six-month period ended June 30, 2021 due to \$177.0 million increase in net assets from operations, offset by \$47.5 million of net redemptions. The increase in net assets from operations was due to \$121.0 million of unrealized appreciation in the value of investments, \$16.0 million in dividend and interest income, \$50.6 million of net realized gains on the sale of investments and a \$0.1 million foreign exchange gain on cash. This was offset by \$10.7 million in management fees and operating expenses.

The following table summarizes the businesses that were added and/or removed from the portfolio during the period:

<i>Additions</i>	<i>Dispositions</i>
Lockheed Martin Company	Organon & Company Honeywell International

The Portfolio Manager made the above equity additions and added to existing positions that they believed were attractively valued using cash available in the Pool.

As a result of these decisions, changes in market values and cashflows during the period, there were some notable shifts in the portfolio allocation from the beginning of the year as indicated in the following table.

<i>Sector</i>	<i>Allocation Increase</i>	<i>Sector</i>	<i>Allocation Decrease</i>
Telecommunication Services	1.6%	Semiconductors & Semiconductor Equipment	3.1%
Capital Goods	1.5%	Technology, Hardware & Equipment	1.3%
Pharmaceuticals, Biotechnology and Life Sciences	1.3%	Automobiles and Components	0.8%
Cash	1.2%	Banks	0.5%
Health Care Equipment and Services	0.4%	Software & Services	0.5%
Transportation	0.4%	Utilities	0.2%
Insurance	0.1%		

Each series of the Pool experienced a gain in the range of 16.1% to 17.2% which was slightly lower than the 17.3% gain of the S&P/TSX Composite Total Return Index (the "Index"). The Pool slightly underperformed the S&P/TSX Composite Total Return Index due to having no exposure to the Canadian energy sector or Shopify. The Pool's holdings in the financials sector were the greatest sector contributors to positive relative performance. The best performing holdings were Wells Fargo, BMO, and CIBC, while Becton Dickinson and Merck were the weakest performers during the period. The Pool's cash position helped reduce volatility but had a negative impact on relative performance. During the period, the Portfolio Manager established a new position in Lockheed Martin and realized a gain on the sale of Honeywell International. The financials, healthcare and information technology sectors are the three largest sector allocations and are expected to have a meaningful impact on the Pool's performance going forward.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

For the six-month period ended June 30, 2021

VPI CANADIAN EQUITY POOL

Revenues and Expenses

Revenues of the Pool for the year included \$16.0 million of dividend and interest income, along with a \$0.1 million foreign exchange gain on cash. These were offset by management fees and operating expenses of \$10.7 million during the period.

The realized gain on sale of investments of \$50.6 million is attributable to two full dispositions as well as several partial dispositions of shares from the portfolio during the period. Dividends received from each of these holdings while in the Pool are in addition to these gains/(losses).

Holding	Approximate Holding Period	Proceeds (millions)	Cost (millions)	Realized Gain/Losses (millions)
Organon & Company ¹	0.1 years	\$ 2.1	\$ 2.7	\$ (0.6)
Honeywell International	0.9 years	\$ 29.3	\$ 17.7	\$ 11.6
Partial Dispositions	n/a	\$ 155.4	\$ 115.8	\$ 39.6
		\$ 186.8	\$ 136.2	\$ 50.6

¹ Shares were received by the Pool in June 2021 following a spin-off by Merck & Co.

Recent Developments

Economic Conditions

The World Health Organization declared a global pandemic on March 11, 2020 and subsequently announced the first emergency use validation for a vaccine on December 31, 2020. Monetary and fiscal policies around the world helped support economies during this pandemic as economic activity suffered and unemployment rose. Several vaccines are in use around the world and are generally proving effective at minimizing the negative effects of the virus and its variants. Economic outlooks have improved as a result of the vaccine's effectiveness and the monetary and fiscal policies that continue to be very stimulative for economic growth. Gross Domestic Product in Canada and the United States is expected to exceed pre-pandemic levels by the end of 2021.

Market valuations are above average relative to historic levels as security prices have increased faster than the fundamental growth of the businesses and interest rates remain near historical lows. As economic growth continues, rising inflation may cause interest rates to trend higher, potentially impacting market valuations. The Portfolio Manager believes there are good opportunities available in several industries; however, caution is essential given volatile economic and market conditions as well as escalating valuation risks. The Portfolio Manager continues to seek opportunities that meet the Pool's investment criteria.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

For the six-month period ended June 30, 2021

VPI CANADIAN EQUITY POOL

Past Performance

The historical performance information shown below assumes that all distributions were reinvested in the Pool and does not account for any sales, redemptions, distributions or optional charges or income taxes payable by an investor that would have reduced returns. Mutual fund returns are not guaranteed, their values change frequently and past performance may not be repeated.

Year-by-Year Returns

The bar charts below show the performance of each series of the Pool (net of fees) for the six-month period ended June 30, 2021, and the previous years ended December 31 or since inception to December 31. It shows in percentage terms, how an investment made on January 1 or on inception would have increased or decreased by the end of the respective periods.

Series A

Series F

Series O

(1) Value Partners Investments Inc. assumed the portfolio management responsibilities of the Pool on January 5, 2015.
 (2) 2017 return is since inception on July 5, 2017.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

For the six-month period ended June 30, 2021

VPI CANADIAN EQUITY POOL

Management Fees

The Pool pays an annual management fee on each of its series (excluding Series O) to Value Partners Investments Inc. (“the Manager”). The management fee is calculated daily as a percentage of the net asset value of each series as of the close of business on each business day. In consideration for the management fees, the Manager may pay a percentage sales commission and/or trailing commission to registered dealers or brokers for units bought and held in the Pool depending on which series of units were purchased. The Manager also pays a portion of the management fee to the Portfolio Manager for its services in managing the investment portfolio.

For the six-months ended June 30, 2021, approximately 41% of the management fee revenues received by the Manager from the Pool were paid to registered dealers and brokers as sales and/or trailing commissions. Since each series may have a different commission structure, this percentage may vary by series. For unitholders eligible for the Management Fee Reduction Program, approximately 16% of the gross management fees were returned to unitholders as management fee rebates. The remainder of the management fee revenue, after payment of fees to the Portfolio Manager for its services, was retained by the Manager for corporate purposes.

Related Party Transactions

Value Partners Investments Inc. is the manager of the Pool and is responsible for the overall business and operations of the Pool. For the six-month period ended June 30, 2021, the Pool paid \$9.0 million in management fees (excluding taxes) to the Manager. In addition, the parent company of the Manager also held 31,008 Series F units of the Pool as of June 30, 2021.

Net asset value per unit ⁽¹⁾	\$12.57	\$10.72	\$11.18	\$10.07	\$10.84

(1) This information is provided as at the date shown.

(2) Management expense ratio is based on total expenses for the stated period (excluding distributions, commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets during the period. In the period a series is established, the management expense ratio is annualized from the date of inception to December 31.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

(4) The Pool's portfolio turnover rate indicates how actively the Pool's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Pool buying and selling all of the securities in its portfolio once in the course of the year. The higher the Pool's portfolio turnover rate in a year, the greater the trading costs payable by the Pool in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Pool.

VPI CANADIAN EQUITY POOL

Other Information

Value Partners Group Inc. (VPGI) owns 100% of Value Partners Investments Inc. (VPI) and LP Financial Planning Services Ltd. (LP Financial), formerly Lawton Partners Financial Planning Services Limited, a mutual fund dealer and principal distributor of the Pool. VPGI is 37.4% owned by Longton Ltd., whose shareholders include specified members of the Lawton family, including Paul and Sean Lawton. Paul Lawton is an officer of VPGI as well as a director and officer of both VPI and LP Financial. Sean Lawton is a director and sales representative of LP Financial.

As of June 30, 2021, sales representatives of LP Financial held, in aggregate, Class A1 shares representing 18.8% and Class C1 shares representing 5.1% of the common equity of VPGI. The remaining common equity of VPGI was held by sales representatives of other dealer firms and employees of VPGI, VPI and LP Financial. No other sales representative held more than 5 percent of the common equity of VPGI. Additional information regarding equity interests may be obtained from the Pool's annual information form or from the Manager's website at <http://www.valuepartnersinvestments.ca>

Forward-Looking Statements

This report may contain forward-looking statements about the Pool, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Pool action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Pool and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Pool. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

We stress that the above-mentioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Pool has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise.
