This interim management report of fund performance contains financial highlights but does not contain either interim or annual financial statements of the Pool. If you have not received a copy of the interim financial statements with this interim management report of fund performance, you may obtain a copy at your request, and at no cost, by calling toll-free at 1-866-323-4235, by writing to us at 300-175 Hargrave Street, R3C 3R8, by visiting our website at www.valuepartnersinvestments.ca or by visiting the SEDAR website at www.sedar.com. You may also contact us using one of these methods to request a copy of the Pool's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Interim Management Discussion of Fund Performance

August 23, 2021

The Interim Management Report of Fund Performance presents management's view of the significant factors and developments affecting the Pool's performance and outlook since December 31, 2020, the Pool's most recent fiscal year-end. This report should be read in conjunction with the Annual Management Report of Fund Performance for the year ended December 31, 2020.

Results of Operations

Net assets for the Pool increased by approximately \$29.8 million for the six-month period ended June 30, 2021. This increase was due to net sales of \$15.2 and a \$14.6 million increase in net assets from operations. The increase in net assets from operations was due to \$10.6 million of net realized gains on the sale of investments, \$4.5 million of unrealized appreciation in the value of investments and \$2.4 million of dividend and interest income. This was offset by \$2.3 million of management fees and operating expenses and a \$0.6 million foreign exchange loss on cash.

The following table summarizes the businesses that were added or removed from the portfolio during the period:

<i>Additions</i>	<i>Dispositions</i>
Samsung Electronics	None

As a result of this addition, cash flows of the Pool and adding/trimming shares of existing holdings, there were some shifts in the sector allocation of securities from the beginning of the year, the most notable of which are highlighted in the following table:

<i>Sector</i>	<i>Allocation Increase</i>	<i>Sector</i>	<i>Allocation Decrease</i>
Cash & Equivalents	8.6%	Semiconductors and Semiconductor Equipment	3.4%
Technology Hardware & Equipment	3.6%	Software & Services	1.8%
Energy	0.8%	Consumer Durables & Apparel	1.5%
		Retailing	1.2%
		Capital Goods	1.2%
		Automobiles & Components	1.0%
		Banks	0.8%

The portfolio has also changed from a geographic standpoint during the period. The most notable changes are highlighted in the following table:

<i>Country</i>	<i>Allocation Increase</i>	<i>Country</i>	<i>Allocation Decrease</i>
South Korea	3.6%	Japan	1.9%
Canada	3.4%	Taiwan	1.9%
Mexico	0.4%	Hong Kong	1.0%
		Germany	0.7%
		Switzerland	0.6%
		Great Britain	0.4%
		United States	0.3%

Each series of the Pool experienced gains in the range of 6.7% to 7.8% for the period as compared to a 10.2% return for the MSCI World Index Total Return (C\$). The Pool lagged relative to the MSCI World Index Total Return (C\$) primarily due to its allocation to US securities and its cash position. While US securities experienced significant returns in both the Pool and the Index during the period, the Pool had a much lower allocation to US securities. In addition, the Pool had an average cash weighting of approximately 12% during the period, which held back returns relative to the Index where securities in general saw positive returns. Offsetting these two factors were the Pool's allocation to European securities which were stronger contributors to the Pool's returns relative to the Index.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

For the six-month period ended June 30, 2021

VPI GLOBAL EQUITY POOL

Revenues and Expenses

Revenues of the Pool amounted to \$2.4 million for the period, which can be attributed primarily to dividend income from its holdings. There was a realized gain of \$10.6 million for the period and \$4.5 million of unrealized appreciation in value of investments. The Pool also incurred \$2.3 million of management fees and operating expenses and experienced foreign exchange losses on cash of \$0.6 million.

Realized gains on the sale of investments totaling \$10.6 million during the period are attributable to partial dispositions of shares in businesses that are still held in the portfolio.

Recent Developments

Economic Conditions

In June 2021, the Federal Reserve signaled that interest rates would trend higher in 2023, given strong economic growth and above-target inflation. Currently, policymakers are examining tapering plans to reduce the significant stimulus efforts that were originally used to spur economic growth during the global pandemic. Low interest rates coupled with fiscal stimulus provided the necessary antidote for a rapid, V-shaped market recovery. A strong recovery in corporate profits and rebound in economic growth has facilitated the rise of broad markets globally.

The Portfolio Manager believes there are good opportunities available in several industries; however, caution is essential given volatile economic and market conditions as well as escalating valuation risks. The Portfolio Manager continues to seek opportunities that meet the Pool's investment criteria.

The above summary of investment portfolio may change due to ongoing portfolio transactions of the Pool. An update will be made available within 60 days of each subsequent quarter-end.

Past Performance

The historical performance information shown below assumes that all distributions were reinvested in the Pool and does not account for any sales, redemptions, distributions or optional charges or income taxes payable by an investor that would have reduced returns. Mutual fund returns are not guaranteed, their values change frequently and past performance may not be repeated.

Year-by-Year Returns

The bar charts below show the performance of each series of the Pool (net of fees) for the six-month period ended June 30, 2021, and the previous years ended December 31 or since inception to December 31. It shows in percentage terms, how an investment made on January 1 or on inception would have increased or decreased by the end of the respective periods.

(1) Patient Capital Management Inc. was appointed portfolio manager of the Pool on November 1, 2011.

(2) 2017 return is since inception on July 5, 2017.

(3) Value Partners Investments Inc. assumed portfolio management responsibility of the Pool in June 2020.

INVESTMENTS

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

For the six-month period ended June 30, 2021

VPI GLOBAL EQUITY POOL

Management Fees

The Pool pays an annual management fee on each of its series (excluding Series O) to Value Partners Investments Inc. (“the Manager”). The management fee is calculated daily as a percentage of the net asset value of each series as of the close of business on each business day. In consideration for the management fees, the Manager may pay a percentage sales commission and/or trailing commission to registered dealers or brokers for units bought and held in the Pool depending on which series of units were purchased. The Manager also pays a portion of the management fee to the Portfolio Manager for its services in managing the investment portfolio.

For the six-months ended June 30, 2021, approximately 42% of the management fee revenues received by the Manager from the Pool were paid to registered dealers and brokers as sales and/or trailing commissions. Since each series may have a different commission structure, this percentage may vary by series. For unitholders eligible for the Management Fee Reduction Program, approximately 16% of the gross management fees were returned to unitholders as management fee rebates. The remainder of the management fee revenue, after payment of fees to the Portfolio Manager for its services, was retained by the Manager for corporate purposes.

Related Party Transactions

Value Partners Investments Inc. is the manager of the Pool and is responsible for the overall business and operations of the Pool. For the six-month period ended June 30, 2021, the Pool paid \$1.6 million in management fees (excluding taxes) to the Manager. In addition, the Manager also held 1 Series A unit, 1 Series F unit and 67,382 Series O units of the Pool as of June 30, 2021.

Financial Highlights

The following tables show selected key financial information about each series of the Pool and are intended to help you understand the Pool's financial performance for the past five years ended December 31 and the six-month period ended June 30, 2021. *This information is derived from the Pool's audited annual financial statements and interim unaudited financial statements and is not intended to be a reconciliation of the net asset value per unit.*

Net asset value per unit ⁽¹⁾	\$9.29	\$8.62	\$9.93	\$9.75	\$9.85

(1) This information is provided as at the date shown.

(2) Management expense ratio is based on total expenses for the stated period (excluding distributions, commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets during the period. In the period a series is established, the management expense ratio is annualized from the date of inception to December 31.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

(4) The Pool's portfolio turnover rate indicates how actively the Pool's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Pool buying and selling all of the securities in its portfolio once in the course of the year. The higher the Pool's portfolio turnover rate in a year, the greater the trading costs payable by the Pool in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Pool.

For the six-month period ended June 30, 2021

VPI GLOBAL EQUITY POOL

Other Information

Value Partners Group Inc. (VPGI) owns 100% of Value Partners Investments Inc. (VPI) and LP Financial Planning Services Ltd. (LP Financial), formerly Lawton Partners Financial Planning Services Limited, a mutual fund dealer and principal distributor of the Pool. VPGI is 37.4% owned by Longton Ltd., whose shareholders include specified members of the Lawton family, including Paul and Sean Lawton. Paul Lawton is an officer of VPGI as well as a director and officer of both VPI and LP Financial. Sean Lawton is a director and sales representative of LP Financial.

As of June 30, 2021, sales representatives of LP Financial held, in aggregate, Class A1 shares representing 18.8% and Class C1 shares representing 5.1% of the common equity of VPGI. The remaining common equity of VPGI was held by sales representatives of other dealer firms and employees of VPGI, VPI and LP Financial. No other sales representative held more than 5 percent of the common equity of VPGI. Additional information regarding equity interests may be obtained from the Pool's annual information form or from the Manager's website at <http://www.valuepartnersinvestments.ca>

Forward-Looking Statements

This report may contain forward-looking statements about the Pool, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Pool action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Pool and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Pool. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

We stress that the above-mentioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Pool has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise.
