HSBC GLOBAL ASSET MANAGEMENT (CANADA) LIMITED

This interim management report of fund performance contains financial highlights but does not contain either interim or annual financial statements of the Pool. If you have not received a copy of the interim financial statements with this interim management report of fund performance, you may obtain a copy at your request, and at no cost, by calling toll-free at 1-866-323-4235, by writing to us at 300-175 Hargrave Street, R3C 3R8, by visiting our website at www.valuepartnersinvestments.ca or by visiting the SEDAR website at www.sedar.com. You may also contact us using one of these methods to request a copy of the Pool's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Interim Management Discussion of Fund Performance

August 20, 2019

The Interim Management Report of Fund Performance presents management's view of the significant factors and developments affecting the Pool's performance and outlook since December 31, 2018, the Pool's most recent fiscal year-end. This report should be read in conjunction with the Annual Management Report of Fund Performance for the year ended December 31, 2018.

Results of Operations

Net assets of the Pool decreased by approximately \$4.3 million for the six-months ended June 30, 2019 due largely to net redemptions of \$4.8 million. The Pool also experienced an increase in net assets from operations of \$770 thousand and paid out income distributions to unitholders of \$318 thousand. The increase in net assets from operations was due to \$506 thousand of interest income, and \$528 thousand of unrealized appreciation in value of investments. This was offset by a \$73 thousand realized loss on the sale of investments along with \$191 thousand in management fees and operating expenses.

During the period, the Portfolio Manager purchased and disposed of units in the Underlying Fund as cash proceeds became available or cash redemptions were required from unitholders. As per the Pool's objective, the only investment made during the period was in units of the Underlying Fund.

Each series of the Pool experienced a return in the range of 2.0% to 2.5% during the period which was comparable to the 2.7% return of the benchmark FTSE TMX Short Term Bond Index.

Overall mortgages in the second quarter outperformed short-term government bonds as the tightening of mortgage spreads and the higher running yield both contributed to the outperformance. The Portfolio Manager believes that mortgage rates still represent attractive value at current levels. With the yield spread now closer to its long-term historical average, the incremental yield advantage is considerable given the historically low interest rate environment. The relatively high running yield of the Underlying Fund continues to be positive for returns and will help to offset some of the negative impacts if mortgage rates move higher. Portfolio duration is conservatively positioned below two years.

Revenues and Expenses

Revenues of the Pool amounted to \$506 thousand, representing interest income distributed from the Underlying Fund. The Pool also experienced \$528 thousand of unrealized appreciation in the value of investments, realized a \$73 thousand loss on the sale of investments and incurred \$191 thousand in management fees and operating expenses, net of \$63 thousand of expenses absorbed by the Manager to maintain the Pool's MER at a competitive level.

Recent Developments

Economic Conditions

The second quarter finished on a positive note in Canada as the loonie climbed on spiking oil prices, better-than-expected wholesale trade data and rising expectations for a US interest rate cut. But as the third quarter opened, investors remained anxious about global growth, recession risk and the possibility of a bear market.

With longer-term yields expected to rise modestly over the next year, the Portfolio Manager aims to maintain the Underlying Fund's interest rate exposure at or slightly below the benchmark in the near term. Given that yields at the short end of the yield curve are now discounting one 25 basis-point rate cut, the Portfolio Manager expects that upward pressure on longer-term yields will lead to a steepening of the yield curve.

The Portfolio Manager feels that the corporate sector remains fundamentally sound, with stable earnings growth and defensively positioned balance sheets. Sector valuations in credit markets have mostly recovered from the widening that was seen in the last quarter of 2018. That said, the Portfolio Manager continues to prefer provincial and corporate bonds over Government of Canada bonds and the Portfolio Manager expects to remain slightly overweight in these sectors.

The above summary of investment portfolio may change due to ongoing portfolio transactions of the Pool and the Underlying Fund. An update will be made available within 60 days of each subsequent quarter-end. Additional information about the Underlying Fund, including its prospectus, is available at www.SEDAR.com.

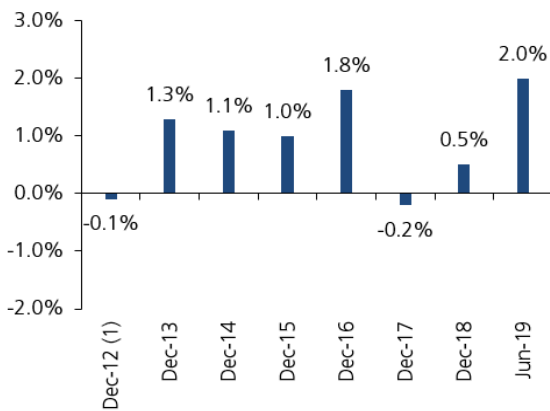

Past Performance

The historical performance information shown below assumes that all distributions were reinvested in the Pool and does not account for any sales, redemptions, distributions or optional charges or income taxes payable by an investor that would have reduced returns. Mutual fund returns are not guaranteed, their values change frequently, and past performance may not be repeated.

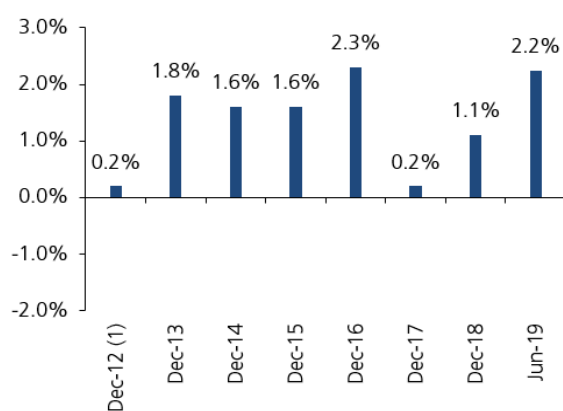

Year-by-Year Returns

The bar charts below show the performance of each series of the Pool (net of fees) for the six-month period ended June 30, 2019, and the previous years ended December 31 or since inception to December 31. It shows in percentage terms, how an investment made on January 1 or on inception would have increased or decreased by the end of the respective periods.

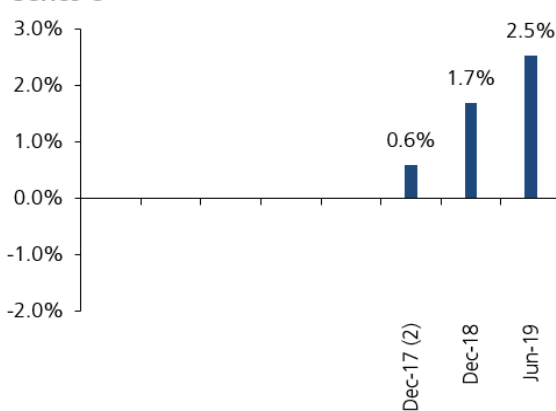

Series A

Series F

Series O

(1) 2012 return is since inception on October 30, 2012

(2) 2017 return is since inception on July 5, 2017.

The past performance for the Underlying Fund is available in the Underlying Fund's annual and interim management report of fund performance and its annual and interim financial statements, all available on www.SEDAR.com.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

For the six-month period ended June 30, 2019

VPI MORTGAGE POOL

Management Fees

The Pool pays an annual management fee on each of its series (excluding Series O) to Value Partners Investments Inc. (“the Manager”). The management fee is calculated daily as a percentage of the net asset value of each series as of the close of business on each business day. In consideration for the management fees, the Manager may pay a percentage sales commission and/or trailing commission to registered dealers or brokers for units bought and held in the Pool depending on which series of units were purchased. The Manager also pays a portion of the management fee to the Portfolio Manager for its services in managing the investment portfolio.

For the six-month period ended June 30, 2019, approximately 28% of the management fee revenues received by the Manager from the Pool were paid to registered dealers and brokers as sales and/or trailing commissions. Since each series may have a different commission structure, this percentage may vary by series. For unitholders eligible for the Management Fee Reduction Program, approximately 20% of the gross management fees were returned to unitholders as management fee rebates. The remainder of the management fee revenue, after payment of fees to the Portfolio Manager for its services, was retained by the Manager for corporate purposes.

Related Party Transactions

Value Partners Investments Inc. is the manager of the Pool and is responsible for the overall business and operations of the Pool. For the six-months ended June 30, 2019, the Pool paid \$148 thousand in management fees (excluding taxes) to the Manager. For the six-month period ended June 30, 2019, the Manager absorbed \$63 thousand of the Pool’s operating expenses. In addition, the parent company of the Manager also held 25,798 Series F units and 1 Series O unit of the Pool as of June 30, 2019.

Financial Highlights

The following tables show selected key financial information about each series of the Pool and are intended to help you understand the Pool's financial performance for the past five years ended December 31 and the six-month period ended June 30, 2019. *This information is derived from the Pool's audited annual financial statements and interim unaudited financial statements and is not intended to be a reconciliation of the net asset value per unit.*

Portfolio turnover rate ⁽⁴⁾	19.57%	39.56%	53.75%
Net asset value per unit ⁽¹⁾	\$9.85	\$9.76	\$9.92

(1) This information is provided as at the date shown.

(2) Management expense ratio is based on total expenses for the stated period (excluding distributions, commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets during the period. In the period a series is established, the management expense ratio is annualized from the date of inception to December 31.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

(4) The Pool's portfolio turnover rate indicates how actively the Pool's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Pool buying and selling all of the securities in its portfolio once in the course of the year. The higher the Pool's portfolio turnover rate in a year, the greater the trading costs payable by the Pool in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Pool.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

For the six-month period ended June 30, 2019

VPI MORTGAGE POOL

Other Information

As at June 30, 2019, Value Partners Group Inc. (VPGI) owns 100 percent of the Manager and Lawton Partners Financial Planning Services Limited (Lawton Partners), a mutual fund dealer. VPGI is 37.4 percent owned by Longton Ltd., whose shareholders include specified members of the Lawton family, including one director/officer of the Manager and one director/officer/sales representative of Lawton Partners. Certain of the directors, officers and shareholders of VPGI are also shareholders and sales representatives of Lawton Partners.

As of June 30, 2019, sales representatives of Lawton Partners hold, in aggregate, Class A1 shares of VPGI representing 17.2 percent of the common equity and Class C1 shares representing 6.2 percent of the common equity. The remaining common equity of VPGI was held by sales representatives of other dealer firms and employees of the Manager. Additional information regarding equity interests may be obtained from the Pool's annual information form or from the Manager's website at www.valuepartnersinvestments.ca.

Forward-Looking Statements

This report may contain forward-looking statements about the Pool, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Pool action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Pool and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Pool. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

We stress that the above-mentioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Pool has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise.
